SKILLS

Javascript, CSS, HTML, Vue, Node, Bootstrap, Teamwork, Verbal Communication, Written Communication, Presenting, Data Collection, Leader, Critical Thinker, Data Acquisition, and knowledgeable in STEM fields.

WORK EXPERIENCE

INVENTORY AND LOGISTICS COORDINATOR

Money Metals Exchange | June 2020 - August 2021

Managed inventory influx due to customer demands.

Communicated anticipated low inventory items to inventory manager.

Achieved expected daily shipment numbers with incoming orders for shipping team to achieve.

I NEED HELP HERE...

Eilecom Solutions | Sept 2018 - Dec 2019

I know I need to add my experiences, but a lot of what I did was engineering based or related to my major. I think I need more help redirecting myself to taking my experiences and changing them in a way that fits this format better. I have a resume completed that has a lot of detail, but probably not the best on showing what I did in more detail.

COMPUTATIONAL ANALYSIS LAB RESEARCHER

Computational Materials Lab | May 2018 - December 2019

Used Python to complete data simulations for experimental environments.

Used data collection in predictive simulations of molecular interactions.

ACADEMIC HISTORY

CODEWORKS

Coding Bootcamp | October 2021 - January 2022

Immersive learning style of coding for full-stack application.

Primary introductions and learning of: Javascript, HTML, CSS, Vue, Node, and MongoDB.

BOISE STATE UNIVERSITY

Bachelors of Science | August 2015 - December 2019

Materials Science and Engineering, Minor in Biomedical Engineering
